

# COLLOIDAL SILVER

Contains 99.999% Pure Colloidal Silver Particles

**What is Colloidal Silver?** At 20 parts per million (ppm), the electro-magnetically charged silver particles in Colloidal Silver stay in suspension, as Mild Silver Protein, without any additional additives. The natural deep golden color of this product is indicative of its high quality. Other products that are not true colloids will be another color, unless coloring is added. Color is a critical indicator of colloidal silver quality. The Lifeplus top grade Colloidal Silver is produced by a highly technical electrocolloidal method employing an electrical current.

Colloidal suspensions consist of particles that will not dissolve in the liquid in which they are placed, but if their particle size is small enough, and especially if an electrical charge can be generated in the particles, they will remain indefinitely in a colloidal suspension. Such suspensions are easily absorbed through living membranes. Lifeplus Colloidal Silver contains 20 parts per million (ppm) of 99.999% Pure Colloidal Silver Particles that are electro-magnetically charged, and suspended in deionized water.

Colloidal Silver contains only natural ingredients. Its natural deep golden color is characteristic of its high quality. Other products that are not true colloids will be another color, unless coloring is added. Color is a critical indicator of colloidal silver quality. The Lifeplus top grade Colloidal Silver is produced by a highly technical electrocolloidal method employing an electrical current. It does not need to be refrigerated.

The silver particles in Lifeplus Colloidal Silver stay in suspension

as Mild Silver Protein, without the need for any chemical or artificial additives or stabilizers. It is packaged in the highest quality cobalt blue bottle, not only preserving the electro-colloidal characteristics of the true colloids, but protecting the solution from damaging ultraviolet light as well.

Each teaspoon (5 ml) of Lifeplus Colloidal Silver provides 100 mcg of Mild Silver Protein.

Supplement Facts	
Serving Size	1 Teaspoon (5 ml)
Amount Per Serving	% Daily Value
Mild Silver Protein	100 mcg *
*Daily Value not established.	

INGREDIENTS: Water (Aqua), Mild Silver Protein (Vegetable).

US.SF2, MOD 1M

Contains 99.999% Pure Silver Particles.

Lifeplus Colloidal Silver is manufactured by a proprietary electrocolloidal method.

Store out of the reach of young children. As with all supplements, please consult your physician prior to taking if you are pregnant or attempting to become pregnant, breast-feeding, under a doctor's care or taking prescription medication. Do not exceed the recommended daily amount.

Allergy Information: This product is processed in the same facility that processes products containing fish/shellfish, soy and dairy. This product was not tested on animals. Suitable for Vegans.

**DIRECTIONS:** Take one teaspoon (5 ml), up to three times per day. Forty (40) pumps from the spray top equals one (1) teaspoon.
